Saltwater Mixes

Balanced Sea Salt

Containing only trace elements that naturally occur in the ocean, our salt, created with evaporated sea water prevents toxic chemicals, and metals from collecting. Developed as closely to natural sea water as possible, this formula highlights ionic stability, and helps to keep other integral parameters (Calcium, Alkalinity, Magnesium, etc), and other micro-elements in range. Take careful care of your fish and other aquatic life with Seapora Balanced Sea Salt. In this case “a grain of salt”, means the best care for your tank! Seapora Balanced Sea Salt is free from undesirable toxins, chemicals metals, phosphates, nitrates and more! Caution: Keep away from children. Not intended for human consumption. May produce slight heat when mixed with water; do not handle with wet hands. Contact with dry powder can cause skin or eye irritation. If contact with eyes occurs, rinse with cool water and seek medical attention immediately.

Balanced Pro Reef Sea Salt

Seapora Advanced Reef Sea Salt is a new advanced formula. Harvested from the Red Sea, pure natural sea salt, creates a perfect base, for a blend complete with both macro and micro elements. The chemical composition of elements and ions to creates a formula, that is both easy, and ready to use after 30 minutes of mixing with out cloudiness or settling. This formula is also complete with vitamins and minerals that allow you to have crystal clear water with perfect parameters that will ensure your sensitive corals and finicky fish thrive. Caution: Keep away from children. Not intended for human consumption. May produce slight heat when mixed with water; do not handle with wet hands. Contact with dry powder can cause skin or eye irritation. If contact with eyes occurs, rinse with cool water and seek medical attention immediately.
